Skills

Languages: C++, JavaScript, TypeScript

Technologies: HTML, CSS, React.js, React Native, Node.js, Express.js, Bootstrap, Tailwind CSS, MongoDB, MySQL

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms, DBMS, Operating Systems

Tools: Amplitude, Corologix, Grafana, DataDog, GitHub, Postman, Retool

Experience

Jupiter

Bengalore, Ind

Software Development Engineer Intern (FrontEnd)

Nov2024–Present

- **Technology & Tools used** :- React Native, TypeScript, Amplitude, Datadog, Firebase, Corologix, Grafana.
- Revamped the **Bills payment screen**, improving UX and stability — enabling **2,00,000+ bill payments** per month.
- Implemented a **convenience fee** module for mobile bill payments, driving **₹50,000+** monthly profit.
- Built **Bills AutoPay**, ensuring consistent and timely recurring bill payments.
- Developed **Saving Pots & Spending Pots** features, driving **50,000+ users** onboarded in a quarter, **54,000+ pots created**, and over **₹100M+ balance** accumulated in savings.
- Created **Credit Card Refinance** flow for CC bill payments, enabling **₹1.2 Cr loan disbursement** quarterly.
- Implemented a **WebSocket-based ticker** to listen for real-time transaction events and update status on **Varuna** and **BT (Payments)** transaction screens, ensuring **faster** and more **reliable** transaction tracking.

Projects

Ride Easy (Full Stack)

March 2024

- **Technology used**:- HTML, JavaScript, Tailwind CSS, React, Node.js, Express, MongoDB.
- **Designed and developed a bike showroom web application** with interactive **3D bike models**, enabling users to explore and compare different bike types (sports, cruisers, adventure, commuters).
- Implemented seamless **test ride booking system** with user authentication, allowing customers to schedule rides for the bike they want to purchase.
- Designed a **responsive and accessible UI** using **Tailwind CSS**, ensuring smooth navigation and cross-device compatibility.
- Integrated **MongoDB** for storing user accounts, bike data, and booking details, with **Node.js/Express** handling server-side logic.

Grocify (Full Stack)

February 2024

- **Technology used**:- HTML, CSS, JavaScript, React, Node.js, Express.
- Developed a responsive online **grocery shopping platform** with a modern, user-friendly interface for browsing, selecting, and purchasing items.
- Built **core shopping features** including product categories, item filtering, and a **real-time cart** with item count updates.
- Designed **persistent navigation bar** with quick access to Home, Shop, Sign Up, and Cart, ensuring seamless user journeys.
- Implemented **user authentication** (login/signup) to streamline onboarding and checkout processes.
- Optimized the platform for **cross-device responsiveness**, delivering a smooth experience on desktop and mobile.

Education

Lovely Professional University

2021 – 2025

B.Tech in Computer Science and Engineering

Army Public School Kirkee

2019 – 2020

Higher Secondary Education (Science)
